### **Course Purpose:**

To introduce or develop and shape a working knowledge of the Comprehensive Musicianship through Performance model. To advance the use of the model in classrooms and rehearsal settings.

### **Course Description:**

This course will give music educators strategies and resources for more deeply connecting students with the music they perform. Emphasis will be placed on how to recognize and find quality repertoire (including by free and legal download), as well as how to make historically significant music exciting and relevant to students of all ages. Using the five points of the CMP model as a springboard, students will participate in demonstration rehearsals, points of the model presentations, class discussions, and work in small group settings. By the end of the course, students will be expected to complete an in-depth CMP plan using the assigned format as well as develop and submit a reflective statement tied to the National Core Arts Standards for Music. Students who have taken a previous CMP Workshop will advance their skills in each area, and focus on a new style of music than previously studied.

#### **Course Goals:**

- To encourage the advancement of the CMP model for music educators.
- To identify and demonstrate best practice for the music classroom.
- To prepare students to be reflective practitioners.

### **Required Texts/Materials:**

O'Toole, P. (2003). Shaping Sound Musicians. Chicago, IL: GIA Publications, Inc.

NOTE: Students are to read the first five chapters of Shaping Sound Musicians prior to the start of class, to prepare for our intensive study and application of the CMP model.

Repertoire: Each student should also come prepared with a detailed repertoire study of one or two pieces that will be programmed in the coming year for an ensemble. One of these pieces will be used as the focus of the CMP plan developed throughout the week. Choral directors should bring 6-10 copies of their chosen octavo or score.

### Standards:

As an important part of this course, students will be asked to reflect on and make connections to the **Illinois Arts Learning Standards for Music**. We will focus on the core music standards applied in the ensemble setting.

### Grading:

This course will be letter graded, and the final grade will be based on performance on assignments (50%) and attendance/participation (50%). Due to the detailed format required of plans in the CMP model, students who do not follow the assigned format will not receive full credit. Attendance and participation are critical as well; an intensive workshop is meant to be immersive and challenging and <u>students must be present at all assigned sessions to receive full credit.</u>

Only serious illness – with accompanying documentation from a doctor or nurse – or SERIOUS family crisis (with accompanying documentation) are "excusable" absences. It is up to the instructor of record to determine whether time can be made up or alternate assignments can be given to receive full credit.

Students should come to class prepared to actively engage with others and the material. Every student is expected to participate fully in class activities in order to reserve credit for the day. All students are expected to be respectful to others and to the material, both verbally and with body language, and intolerant or rude behavior will not be accepted.

Evaluation including Standards Reflection (10%)
Each student will be asked to complete a narrative reflection on the relationship between the CMP workshop and implementation of the Illinois Arts Learning Standards for Music.

Evaluation including Standards Reflection: Due no later than Friday, July 5th.

\*\*\*Final grades will be submitted once both the CMP plan and the standards reflection have been received – <u>please observe due dates for full credit</u>.\*\*\*

NOTE: If you need an accommodation for this class, please contact the Disability Resource Center as soon as possible. The DRC coordinates accommodations for students with disabilities. It is located on the 4th floor of the Health Services Building, and can be reached at 815-753-1303 or <u>drc@niu.edu</u>.

Also, please contact me privately as soon as possible so we can discuss your accommodations. Please note that you will not be required to disclose your disability, only your accommodations. The sooner you let me know your needs, the sooner I can assist you in achieving your learning goals in this course.
